LOS ANGELES CEREC COURSES

LOS ANGELES CEREC COURSES

Doctor / Assistant
Intermediate and Advanced
Cerec Courses

El Segundo, California
Patterson Facility

There has never been a more exciting time to use CEREC than now!

Doctor Courses

INTERMEDIATE POSTERIOR DOCTOR COURSE:

This two day course is aimed at the intermediate CEREC user who has completed at least 50 CEREC restorations. In this information packed course, student will learn the ins and outs of manufacturing CEREC restorations in Master Mode. Students will learn all the tools and parameters involved. Additional focus will be given to correlation, dental implants and multiple posterior restorations. Staining, Glazing and Porcelain addition will be covered as well as using Ivoclar's EMAX Cad. We will also cover retrofitting partials with CEREC as well as an introduction to single anterior restorations. 14 CE Patterson Approved CE credits will be given. Patterson Vouchers Accepted.

Course Fee: \$2495 per doctor, \$495 per assistant (assistant must accompany doctor)

Course Dates: February 8/9 2008 - August 1/2 2008

EXTREME ANTERIOR DOCTOR COURSE:

This two day course will show you everything you need to know to start doing one day smile makeovers. From smile design, to prep design students will learn how to transfer information from wax up to the mouth using a jig. All students will prep, design, mill and stain and glaze multiple anterior veneers and crowns. An emphasis will be given to predictably manufacturing anterior restorations that both you and your patients will be proud of. 14 Patterson Approved CE credits will be given. Patterson Vouchers Accepted.

Course Fee: \$2495 per doctor, \$495 per assistant (assistant must accompany doctor)

Course Dates: May 23/24 2008 - September 5/6 2008

With the latest advances in version 3.03 software, CEREC has become easier and more profitable than ever. We are proud to announce a new line up of courses at the Patterson CEREC facility in El Segundo California to every level of CEREC user whether you are a doctor, an assistant or a lab technician!

Drs. August de Oliveira and Steve Longoria have combined their years of experience to bring a fresh new approach to CEREC education. Students will learn the latest in software manipulation; clinical tips and lab techniques that will make every CEREC restoration rival that of the best dental labs.

The Instructors:

Dr. August de Oliveira is a Patterson Certified Basic and Advanced Trainer and has lectured nationally on CAD/CAM. Dr. de Oliveira is also a Sirona CEREC Beta Tester and has firsthand knowledge on the changes in Version 3.03. He is regular contributor to dentaltown.com one of the largest online community of CEREC users in the world.

Dr. de Oliveira has started and maintains two of the most viewed internet "threads" on CEREC. Dr. de Oliveira graduated from the University of Washington School of dentistry in 1997 and completed his GPR at UCLA. Dr. de Oliveira maintains a high tech dental practice in Encino, CA.

Dr. Steve Longoria, has been involved in CEREC CAD/CAM for 6 1/2 years, is an industry leader in CEREC technology, often sought to educate other Dentists about CAD/CAM dentistry at both the local and state level. He is an informational speaker for Patterson Dental Supply and Sirona Dental Systems. Dr. Longoria teaches intermediate and advanced CEREC 3D along with live patient demonstrations. He has published articles for Dental Product Reports and Sirona's Fall Technology Guide Magazine. Dr Steve Longoria, is a 1991 graduate of Northwestern University Dental School, maintains a private practice in California with a focus on CEREC and cosmetic dentistry with an emphasis on using the CAD/CAM technology for single visit implant crowns.

Assistant Courses

DENTAL ASSISTANT TRAINING COURSES:

A series of three courses designed to mirror the same information taught to doctors using the new CEREC software version 3.03. Throughout the three hands on courses dental assistants will be transformed into CEREC assistants! Special attention will be given towards allowing assistants to function independently. From powdering and imaging, to designing and glazing, students will be taught systems to deliver lab quality restorations that require minimal adjustment. Book all three courses and save. 7 Patterson Approved CE credits given, Patterson vouchers accepted.

Basic Training:

Assistants will be given the same training that all doctors receive with the machine. Students will get familiar with prep design, powdering and designing CEREC restorations. Each assistant will design and mill an inlay, onlay, and crown using Standard Mode.

Course fee: \$595 **Course Date:** January 18, 2008

Intermediate Training:

Emphasis will be given to multiple posterior restorations using Master Mode. We will also cover correlation and retrofitting a partial using CEREC. The basics of staining and glazing as well as using Ivoclar's Emax Cad will be reviewed.

Course fee: \$595 **Course Date:** April 11 2008

Advanced Training:

Students will learn all about smile design and how to manufacture CEREC restorations in the anterior. Multiple restorations will be performed using a jig. Students will learn how to make restorations using database, correlation, and replication.

Course fee: \$595 **Course Date:** April 25 2008

Book All three courses for \$1500.

**Payment in full within 30 days required to hold place.
No refunds, however credit to future courses given for cancellations within 2 weeks of course date.**
